If you've been away from the pony car segment for a while, prepare yourself for a shock: The modern Mustang is refined, rapid and rewarding. This generation's road manners took a big leap forward when the entire 2015 Mustang lineup received --- for the first time in 50 years --- an independent rear suspension. This change facilitated the Mustang's transformation into a more sophisticated and comfortable car while its performance capabilities reached new heights. AUTO GALLERY SUBARU is
