## Pre-Owned Vehicle

### 2020 Ford Explorer XLT | POWER LIFTGATE | HEATED SEATS | AWD

Now entering its sixth generation, the 2020 Ford Explorer represents a complete rethink of this three-row family SUV. Early Explorers were built on truck frames and were primarily driven by the rear wheels, and the outgoing model employed a front-wheel-drive layout and used car-like unibody construction. The all-new 2020 model combines the best elements of each. It returns to a rear-wheel-drive layout, but its body retains unibody construction. This detail isn't obvious at first
